

Han Su Yin

Web Developer | Business Automation | Full-Stack Development
Available for full-time roles from March 2027
Portfolio: *Han Su Yin Portfolio*

About me

Final-year **Computer Science** student at Stamford International University **(GPA 3.93/4.00)** and **AI Innovation Intern** at TBS Marketing. I build websites, web apps and automations that help businesses run more smoothly, including 2 projects in real client use. **Seeking a full-time web developer or business automation role from March 2027.**

Education

Bachelor of Computer Science (Expected 2027)
Stamford International University
GPA: 3.93 / 4.00

Relevant Coursework:

- Data Structures & Algorithms
- Database Systems
- Software Engineering
- Web Development
- Software Testing

Technical Skills

Programming
- Python • Java • PHP • JavaScript • SQL

AI & Machine Learning
- LLM Integration • RAG • Semantic Search • Embeddings • KNN • SVM

Computer Vision
- YOLOv8 • OpenCV • ByteTrack • Object Detection • Object Tracking

Web Development
- HTML5 • CSS3 • Bootstrap • Next.js • Responsive Design

Backend & APIs
- FastAPI • REST APIs • PHP • Google Apps Script

Databases
- MySQL • Google Sheets • Database Design

Tools
- Git • GitHub • VS Code • Figma • Power BI

Work Experience

- **AI Innovation Intern**
- TBS Marketing (11/2026 – 02/2027)

- **Co-Host / Operations Assistant (Remote)**
- Airbnb Property Management (12/2023 – Present)
- Managed Airbnb listings and property information.
- Provided customer support and resolved booking-related issues.
- Coordinated with hosts to maintain smooth rental operations.

Client Projects

Restaurant QR Ordering System
PHP • MySQL • JavaScript • Bootstrap

- Full-stack QR ordering system used daily by a local restaurant: multilingual menu, order management, admin dashboard and sales reports.

Her Body Club – Fitness Coaching Website
HTML5 • CSS3 • JavaScript • Google Apps Script • Google Sheets

- Responsive coaching website with a multi-step application form that sends submissions to Google Sheets automatically; live on a custom domain.

University Projects

- **NovaRoute AI** – internship recommendation platform using LLMs, RAG and semantic search (Python, FastAPI, Next.js).
- View on GitHub

- **Traffic Monitoring & Speed Analysis** – real-time vehicle detection, tracking and speed estimation (YOLOv8, OpenCV).

- **Smart Rental Revenue Classifier** – machine learning model sorting bookings into revenue tiers (Scikit-learn, KNN, SVM).

- **Assignment Tracker** – PHP/MySQL web app with authentication and assignment management.
- View on GitHub

- **Library Management System** – PHP/MySQL web app with role-based access, borrowing and fines.
- View on GitHub

Certifications

- **Oracle Academy Java Foundation**
- **AWS Academy Graduate - Cloud Foundations**
- **Data Analytics with Databricks and Power BI (ADASTRA)**

Languages

- Burmese (Native)
- English (C1)
- Thai (Intermediate)
